EXPERIENCE

Full Stack Developer + Designer — Freelance

March 2018 - Present | Honolulu, HI
+ Collaborating with local startups to design and develop websites + web applications
+ Consulted with clients to develop and design websites based on business needs

Web Developer — Altres

October 2017 - February 2018 | Honolulu, HI
+ Developed a feature using Java, JSTL, and Servlets that allows users to import/export Excel documents to track employee costing rates
+ Responsible for updating features utilizing Java, JSTL, jQuery, and Javascript
+ Followed agile software development methodologies and SCRUM
+ Tested existing software and followed Test-Driven Development (TDD) practices when developing new software using PowerMock/EasyMock
+ Used GIT for version control and JIRA for issue tracking

PROJECTS

FreeCodeCamp — Front End Developer

Completed several front-end projects to obtain Free Code Camp's Front-End Development Certificate. Focused on designing each project to utilize a minimalistic UI and primarily used HTML, CSS, JavaScript, jQuery, AJAX, Bootstrap, and various APIs.

React Kanban — Full Stack Developer

Created and designed a full stack task managing web application. Developed two MVC versions one utilizing only React and Redux and the other utilizing React, Redux, Express, Node, Redis, PostgreSQL, Sequelize, and Axios.

Help Your City — UX/UI Front End Developer

Collaborated with a team to develop a full stack social rescue web application. Responsible for designing the user interface and application flow while managing and delegating tasks to the team. Built with React, Redux, Express, Node, PostgreSQL, JWT, Twilio, and Sequelize.
